

Bugs Don't Buzz

Majical Cloudz

The cheesiest songs all end with a smile
This won't end with a smile, my love

Wait with me in slimy wet darkness
I'll be right beside you, my love

Bugs don't buzz when their time approaches
We'll be just like the roaches, my love

It pays to be on the edge of existence
Just riding the surface, my love

The happiest songs all end with a smile
This might end with a smile, no my love

If life could be forever one instant
Would it be the moment you met me? No my love
