

# Disappeared

Majical Cloudz

Those that forever disappear  
All I want is for you to talk to me  
The way you used to do

Your old hymns don't touch my face  
My heart moves in a new place  
I am out of practice falling into love

Remember when we used to say  
I don't know and it was okay  
I am going back to knowing nothing now

Those that forever disappear  
All I want is for you to talk to me  
The way you used to do

If you won't be seen again  
I hope you know you were my friend  
And in my head the world will never hurt you
