

Easier Said Than Done

Majical Cloudz

When you're in love it doesn't hurt
When you're alone it gets much worse
You say it's stupid to be upset
You smoke another cigarette

Why would you wanna hide
We will see you through
And what about your life

When everyone else goes to bed
I see you walking in my head
The way you move seems so assured
I look again and I'm not sure

Why would you wanna lie
I've been an easy friend
And what about your life

Why would you wanna die
It's easier said than done
And what about my love
What about my love
