

Calling ya, baby, I'm calling ya  
Where you at, can you not answer me now?  
Tell me now, 'cause I'm missing you  
Dreaming of me kissing you  
Put it down, baby, whine for me now  
I'm finna, take you out abena  
Don't know why I'm missing you  
Dreaming of me kissing you

Falling in love  
Can't give it up  
I need you more  
Baby girl, no take me waka  
Don't keep me up  
I'm deep in love  
I need you more  
Baby girl no take me

You're so different  
I don't recognize you  
With all these different  
Pretty girls in my life, baby  
You're so different  
I don't recognize you  
With all these different  
Pretty girls in my life

Dealing with 'em

In the morning or in the night  
You know won't do you wrong, I'm your mister right  
You know that I see you yeah yeah  
You shining I need you yeah yeah  
She not nice but she looking nice  
Cold hearted I could break the ice  
The moment I see you yeah yeah  
There's no way I'll leave you yeah yeah

Falling in love  
Can't give it up  
I need you more  
Baby girl no take me waka  
Don't keep me up  
I'm deep in love  
I need you more  
Baby girl, no take me

You're so different  
I don't recognize you  
With all these different  
Pretty girls in my life, baby  
You're so different  
I don't recognize you  
With all these different  
Pretty girls in my life
