

Sunset

Majid Jordan

Found heaven and I dove right in
There's an angel waiting in my bed
Found heaven and it feels so real
You take me to the moon

You know who you are
Everybody knows what you do to me
Oh, yeah
Can I make it right?
You know this love is new to me
Oh, yeah

Like the sunset in Morocco
You're a tough act to follow
Here today, gone tomorrow
It's a tough pill to swallow

Time passes and I feel a change
There's an angel and it knows my name
Who loves me as I really am
And takes me to the moon

You know who you are
Everybody knows what you do to me
Oh, yeah
Can I make it right?
You know this love is new to me
Oh, yeah
Oh, yeah

Like the sunset in Morocco
You're a tough act to follow
Here today, gone tomorrow
It's a tough pill to swallow

Like the sunset in Morocco
She's a tough act to follow
Here today, gone tomorrow
She's a tough act to follow

Like the sunset in Morocco
You're a tough act to follow...
