

Joy Rider

Major Accident

Grab a red GTI, there for the taken
Fast and furious, joy ride in the makin'
In seconds flat, behind the wheel
Ignition jump, it's a great great great great great great steal

Joy rider, a joy for who
Cheap thrills leading to a kill
Joy rider, a joy for who
Not for those who's kids you kill
Joy rider, a joy for who
Doesn't matter who's blood you spill
Joy rider, a joy for who
Cheap thrills leading to a kill

Get your mates, driving around
Looking for talent, cruising up and 'round the town
Pick your girls, drive real fast
The screams and thrills, how long how long will it last

Blue lights flashing, the chase is on
Pedal to the metal, you're on the run
Your in a skid, out of control
Screams from the back, car starts to roll

Friends are all dead, who's to blame
A mangled wreck, life will never seem the same
By the roadside, children play
Panic on their faces, before before before being slayed
