

## Mr. Nobody

### Major Accident

Violence creates violence  
So the media likes to say,  
Stuffed with their non-gratitude,  
They lock themselves away.  
Sit at home and watch TV,  
Safe in their private place.  
And all the time they're wondering,  
What's happened to the human race.

Try and hide all of their fears  
Try and hide all of their tears  
Devastation's on the way,  
Small price for them to pay  
For living - in the world today

Problems making problems,  
Their minds can't comprehend  
Don't trust Mr. Nobody  
Cos nobody's his friend  
Living in their own real world  
Where no one's on the take  
And people live in conflict,  
Too afraid to make mistakes

Silence creates silence,  
So the people like to say  
Blame it on minorities,  
And lock the kids away  
Close down inner cities,  
On authorities command  
Man's attempt at solitude,  
Has played its final hand
