

# Girls

Major Lance

Girl (girl)  
If you hear me calling

Girl (girl)  
No need of acting  
Like you don't know  
The guy that you hurt so

Hey, girl (girl)  
Why do you ignore me

Girl (girl)  
With us, was it so sad  
Give me the truth  
Was I that bad

What made you change  
And act so strange  
As though you don't know me

I found out this morning  
You put me down  
You put me down  
Got another man in your arms  
Don't want me around  
Don't want me around

Realized, I know  
What you've done  
You put a hurt on me  
And now, you don't  
Even know me

You don't know me  
You don't know

Realized, I know  
What you've done  
You put a hurt on me  
And now, you don't  
Even know me

You don't know me  
You don't know  
You don't know me  
You don't know
