

# Head Up High

Major Lazer

Gonna fight, gonna fight, gonna make it through the night  
When the walls cave in, feel the cold inside  
When tomorrow comes, you know the sun gon' shine  
And it's hard but I gotta hold my head up high

Gonna fight, gonna fight, gonna make it through the night  
When the walls cave in feel the cold inside  
When tomorrow come you know the sun gon' shine  
And it's hard but I gotta hold my head up high  
Know it's hard, but I gotta hold my head up high, oh  
And it's hard, but I gotta hold my head up high, oh

Gonna fight, gonna fight gonna make it through the night  
When the walls cave in, feel the cold inside  
When tomorrow comes, you know the sun gon' shine  
It's hard but I gotta hold my head up high

Gonna fight, gonna fight, gonna make it through the night  
When the wall's cave in, feel the cold inside  
When tomorrow comes, you know the sun gon' shine  
Know it's hard, but I gotta hold my head up high  
Oh, oh, oh, oh, oh
