

## Built For

## Major Nine

2 bedroom, 10 heads, 2 beds  
Double blanket pallet, we can't sleep on the chairs  
They call it the struggle, we call it getting prepared  
For something we was built for  
For something we was built for  
For something we was built for  
For something we was built for

Built for the worse, not ford tough  
Prices done went up, no you can't afford us  
Came from 3 hundred and a bottle  
Now them bad bitches swallow  
And my glitch full of hollows  
All ten toes with my boots on  
Stepping over, not around, I got to move on  
I'm on the this liquor and this weed just to balance  
Put my family in a palace  
Me and my mama shared a mattress  
I ain't no actor, need no actress  
I need a lil bih bout her action  
Who got the keys to the jeep with the 6 wheels  
Since high school I ain't miss more than 6 meals  
Since high school I done turned down 6 deals  
I say I did it for my family  
If I fuck and I duck, you can't handle me  
And you'll know if we was truly close  
I don't trust hoes cause they do the most  
It ain't bout what you know, its who you know  
It ain't bout who he killed, but who he told  
My right hand don't trust my left hand  
And you better watch these hoes, cause she'll fuck your best man

For something we was built for  
For something we was built for

Built for this shit, excuse my french  
You know how the struggle get  
Learned to hustle quick  
Blisters on my feet trynna make cause shoes fit  
Birthday back to back, one cake we had to split  
One dollar we gone split  
Fifty cent, fifty cent  
I get a soda, you get chips  
You give me some, I let you sip  
Remember how we hit that lick  
Then late night we hit that strip  
We robbed a nigga, then we prayed  
God ain't gone forgive that shit  
They say the devil was a angel, and I been saying I'm heaven sent  
I been using my powers wrong, I gotta go the opposite  
I started dropping shit  
Pulling up on Chizzim, we be club rocking shit

Smoke politics

Used to look up to the stars and make a wish

Now we pull up with the stars in the roof, I told that bitch make a wish

Lawd, I'll never picture this, but then again

We was prepapred for this since we was jits
