

Love Don't Live Here

Major Nine

Love don't live here
Neither do affection
Until I seen that lil girl complexion
Dreams wasn't mess with
I was on road with the reckless
Lil homie died over a necklace
A Soul in the hemisphere
Gotta float with all precautions
My uncle wish I played for the dolphins
But I hung with the Steelers
Matter fact we was Titans
Quick switch the play if they ain't fighting
It's my fault my God sister dykin
All I showed was tough love
When they had me, man they fucked up
When they had me, man they fucked up

Love don't live here, neither do the fake
Before you hear it from somebody, I'm going to say it to your face
Love don't live here
Neither do the flawgin
I won't lie on my dick
Man I rather switch the topic
She gonna act like she wasn't a option
And he be really chilling in person, it ain't no opp shit
Its all for the Gram
You wanted Gina, had my eyes on Pam
Nice lil brown ting, Lips like ham
Can I get a bite
Let me take my time, can I get it right
Love don't live here
Neither do a fuck nigga
If you one, I can't fuck with ya
Can I keep my distance
Quick to bump like the '03 Pistons
Masked up, like I'm Hamilton
Totally different how she handle him
After the Chobee was the Mandarin
And please don't get your candle lit
Cause I don't trust no hoe
Bitch I'm from the city
That's just how it go though
Love don't live here
Neither do that green shit
If I said it, then I mean it
Love don't live here
Till I seen my lil dude
Respect the game, but fuck their lil rules
Big stepping in some lil shoes
Daddy got your back
Close the window, I grab the pump, you get the mack
Love don't liver here
Check next door, they might live near
Cause I done lost it all
I done lost my dawgs
No timeouts, swear a nigga still in
Love don't live here

Neither do feelings
