

Yo next life might be better than this test life  
Yo next life might be better than this test life

This a message to them shorties  
Go get yo money jit  
Stand on these principles  
We'on tolerate no funny shit  
If you gone hustle, do it right  
You gotta cut yo grass  
Go buy a safe  
And we put 500 in them mags  
Gotta walk with caution  
Head still high even though this life a auction  
Yo next life might be better than this test life  
So gone head and live it up  
I'll get you started on yo test flight

Dreams come true  
Ever seen a brain turn to soup  
Drop the top, I think my pain in the roof  
These scars on me proof  
I don't need no Co-D's  
Phones full of hoes, I almost O.D'd  
She told me, touch money till I'm dead and I'm gone  
Forgot your number, but I know you number 1  
Before you lay down in that casket, go and have fun  
Gotta do it for them shorties that ain't have none

Friends amongst twins, I ain't gotta look like you to help  
Always said us, but I did it by myself  
Always said we, when we know that shit was me  
They was with me with them W's, but them L's I took in peace  
Passport ready bout to take my bitch to Greece  
Wrap them twins up in the most expensive fleece  
Imma keep on blessing you even though you ain't sneeze  
Like here's a pillow for your knees  
Intellectual conversations got me hooked  
When I eat that pussy feel like read a book  
I won't lose my pride on all ten I'm never shook  
More money more problems, and that ain't just how it look
