

We spent a couple days  
Slow dancing in the waves  
I wanted it to go on forever

And the ocean called our names  
From the flame beyond our shade  
It's saying we should be together

Because when I'm with you  
All the sadness tends to fall away, it just falls away  
You're my endless summer set in watercolor  
You're my dying breath and my safe place

I learned a Spanish phrase  
To remind me of those days  
It went something like "contigo siempre"

I never wanted something so bad  
I never wanted something so bad  
Until I saw you there, the sunlight dripping from your hair

Because when I'm with you  
All the sadness tends to fall away, it just falls away  
You're my endless summer set in watercolor  
You're my dying breath and my safe place

On the way out, all the grey clouds are dissipating  
So long, I've been waiting  
For my heart to be found, to be with you now  
And it's so amazing, thank you for waiting

Because when I'm with you  
All the sadness tends to fall away, it just falls away  
You're my endless summer set in watercolor  
You're my dying breath and my safe place

I never wanted something so bad  
I never wanted something so bad  
Until I saw you there, the sunlight dripping from your hair
