

# Deteriorate

Makari

Hello, can I survive this way?  
Sing songs, get high and numb the pain

Time keeps marching on  
Fake a smile and lock myself away  
To dwell on all I've done wrong  
Carry on 'til I'm gone

From first light, strive to create  
Fill our lives with love and hate  
Bide your time, count down the days  
Say goodbye, deteriorate

(Deteriorate)  
([?])

I gave a prayer long ago  
And found out that I'm alone  
'Cause no one cares, it's hollow  
We just go 'til we're gone

From first light, strive to create  
Fill our lives with love and hate  
Bide your time, count down the days  
Say goodbye, deteriorate

Deteriorate

I've tried so many times  
To feel fucking alive  
Watch pieces of me float by  
Wake up every day and try

From first light, strive to create  
Fill our lives with love and hate  
Bide your time, count down the days  
Say goodbye, deteriorate
