

# Let Go

Makari

Far, so far away  
I think I'll stay awhile  
And count cracks in the tile

And won't it be fun  
To hide myself from anyone that  
Tries to help me?  
Do you think that's healthy?

You'll go right and I'll go left  
Spend my whole night a nervous wreck  
I hope you  
Enjoy the show  
I'll never know

You're damn right there's nothing left  
Spend my whole life  
Retracing steps but I can't  
Let go  
Just let me go

And I'll have so much fun  
Dissociate from everyone while they  
Dance around me  
What a lovely party

It's getting late, I should go home  
But I'm afraid if I'm alone I'll just find you there  
Stuck in place, or erased  
Like you were never really there at all

You'll go right and I'll go left  
Spend my whole night a nervous wreck  
I hope you  
Enjoy the show  
I'll never know

You're damn right there's nothing left  
Spend my whole life  
Retracing steps but I can't  
Let go  
Just let me go

I'm dizzy now  
My heartbeat's loud  
But I'm still holding on  
Yeah, I'll keep holding on

For something new  
To make it through  
But it can't be you  
No, it can't be you

You'll go right and I'll go left  
Spend my whole night a nervous wreck  
I hope you  
Enjoy the show

I'll never know

You're damn right there's nothing left  
Spend my whole life  
Retracing steps but I can't  
Let go  
Just let me go
