

# Desirae

## Make Out Monday

Calling my bluff from the crowd  
I'm famous, but not in this town  
Desirae, you're taking down  
Every single name that doesn't mean a thing

(Desirae bringing me)  
(Desirae bringing me)

Shut up and love the way I break my back for you (I break my back)  
It took so long to find a metaphor you could understand (do you understand that?)  
Overlooked would be a welcome change  
Summer came and not a batboy begged  
Taking hits, not getting up  
Throwing punches like you're fooling everyone  
You're fooling everyone

Calling my bluff from the crowd  
I'm famous, but not in this town  
Desirae, you're taking down  
Every single name that doesn't mean thing  
Desirae, why can't you see?  
You're bringing me to my knees  
Desirae, would you believe  
I'm throwing it all away?

I crave the bullets 'cause I taste the lead (yeah, I taste the lead)  
The only one who still treats me like I'm the kid I was back then  
You say, "We're all nobodies when we get home" (we get home)  
How many wallflowers have gotta fade just to get you alone?

Calling my bluff from the crowd  
I'm famous, but not in this town  
Desirae, you're taking down  
Every single name that doesn't mean thing  
Desirae, why can't you see?  
You're bringing me to my knees  
Desirae, would you believe  
I'm throwing it all away for you?

The higher I get, the lower I feel  
You're still the only thing that's keeping me real  
I've waited all summer long for a kiss...  
Talk down to me, make sure you go deep  
I'm like a masochist for kerosene  
I've waited all summer long for a kiss on the cheek...

Calling my bluff from the crowd  
I'm famous, but not in this town  
Desirae, you're taking down  
Every single name, every single name  
Calling my bluff from the crowd  
I'm famous, but not in this town  
Desirae, you're taking down  
Every single name that doesn't mean thing

(Desirae bringing me)

(It doesn't mean a thing)  
(Desirae bringing me)
