

## Affliction of the dead

**Make Them Suffer**

Shattered, the fragments of my life lay scattered,  
engulfed beneath the shadows of my forever. I am broken, decrep  
it.

Lay this rose upon my tombstone  
I shall not live by your lies

Only from the moisture of my rotting carcass shall I blossom

Mind controlled by hopeless affection, this affliction;  
Affliction of the dead

As my lungs are slowly crushed  
Shattered, the fragments of my life lay scattered,  
engulfed beneath the shadows of my forever. I am broken, decrep  
it.

As I sink beneath the shadows I find peace beneath the grave  
And finally now, I can blossom
