

Save Me

Makeout

I've got this pain in my chest
It's killing me trying to get it out
And your worst days
Remind me of my best
I'm living in my head
With this loneliness
Yeah I'm stuck in a rut
I can't figure this out
I wear my mind on my sleeve
And my heart on the ground
It's not an emergency
But please someone rescue me

It feels like heavens burning down
Why am I not freaking out
Won't someone come save me
Won't someone come save me
And it feels like
My life has gone to waste
Doesn't matter anyway
Won't someone come save me
Won't someone come save me

It's like I'm trapped here
Don't know what went wrong
And I've been hurting
For way too long
And taking turns now
And they lead me on
A different version
Of the same old song
And is it worth it
When the feelings gone
Another purpose
Or should I move on
It's never perfect
But all that I want
Is someone to rescue me
It's an emergency

It feels like heavens burning down
Why am I not freaking out
Won't someone come save me
Won't someone come save me
And it feels like
My life has gone to waste
Doesn't matter anyway
Won't someone come save me
Won't someone come save me

Come on come on
Won't somebody help me
Come on come on
I feel like I'm drowning

Won't somebody rescue me
This is an emergency

Won't somebody rescue me
This is an emergency

It feels like heavens burning down
Why am I not freaking out
Won't someone come save me
Won't someone come save me
And it feels like
My life has gone to waste
Doesn't matter anyway
Won't someone come save me
Won't someone come save me

Come on come on
Won't somebody help me
Come on come on
I feel like I'm drowning
Won't someone come save me

Come on come on
Won't somebody help me
Come on come on
I feel like I'm drowning
Won't someone come save me
