

Wish U Were Here

Makeout

Pictures you gave me
I threw 'em away
It's been a year since
You went to LA
And I try to tell myself it's gonna be alright
But you keep getting in the way

I take another shot to wash it down
I hate it when the truth comes out

Its 3AM and the party's over
I'm drunk again but I'm starting to sober up
And the thought of us just wont disappear
And I wish u, wish u were here

Wish u, wish u were here

I heard that you moved on
To somebody new
But that doesn't phase me
I'm moving on too
And I try to tell myself it's gonna be alright
But memories keep coming through

I take another shot to numb the pain
I wish I could shut off my brain

Its 3AM and the party's over
I'm drunk again but I'm starting to sober up
And the thought of us just wont disappear
And I wish u, wish u were here

Wish u, wish u were here

I take another shot to numb the pain
I wish I could shut off my brain

Its 3AM and the party's over
I'm drunk again but I'm starting to sober up
And the thought of us just won't disappear
And I wish u, wish u were here

Stumbled home but I can't stop pacing
Thinking of you and my heart starts breaking up
And the thought of us just wont disappear
And I wish u, wish u were here
Wish u, wish u were here
Wish u, wish u were here
