

# Breathe

Mako

Another night up at the bar late  
Skinny dresses and heartbreaks  
There's nothing magic going on  
Then 'long came you  
All the lights are down low  
And I keep losing my focus  
There's something happening  
I can't keep cool

Oh, I can't sleep  
I'm dancing with adrenaline  
I can't speak  
Hands, they keep trembling  
I've been so weak  
When you make an entrance  
And when you leave  
Oh, I can't hardly breathe

Oh, darling, I can't breathe  
Oh, I can't hardly breathe  
Oh, darling, I can't breathe  
Can't hardly breathe  
Oh, I can't breathe  
Can't hardly breathe  
Oh I, oh I  
Can't hardly

And now you're killing me softly  
You're saying things with your body  
So I take your hand and then we go  
All eyes on you  
And I pull you in closer  
You got me hooked and you know it  
You're like a gamble  
But I love playing it loose

Can't sleep  
I'm dancing with adrenaline  
I can't speak  
Hand, they keep trembling  
I've been so weak  
When you make an entrance  
And when you leave  
Oh, I can't hardly breathe

Oh, darling, I can't breathe  
Oh, I can't hardly breathe  
Oh I, oh I  
Can't hardly breathe  
Oh, I can't breathe  
Can't hardly breathe  
I can't hardly

Oh, tell me what you've done; I'm awoken  
And I love it more every moment  
So, give me something for when you leave  
'Cause I can't hardly breathe

I can't hardly breathe  
I can't hardly breathe  
(I can't breathe)
