

# Not Alone

Mako

I'm making up every minute  
I'm a little bit tired  
I've ended up in the middle  
Million times  
I can't keep up with the feeling  
I'm living in now

And I could see you all alone  
If only for a moment at all  
I wish I could hold the dark  
Away for long for you

But you got to go home  
We're never not alone, not alone no  
We're never not alone, not alone no  
We're never not alone, not alone no  
We're never not alone, not alone, not alone

We're never not alone  
We're never not alone

But you got to go home  
We're never not alone, not alone no  
We're never not alone, not alone no alone

We're never not alone
