

Did You Get What You Wanted

Mal Blum

Did they ask what you did?
Did you want to respond?
Do you ever get the feeling lately that it may be you've gotten it all wrong?
When it feels more like a war
And I've been choosin' sides just like any other guy
What did you want it for?
God I hope I get a gift bag
A little of my faith back
But I'd never ask you

Did you get what you wanted?
Or at least did you want what you got?
Did you get what you wanted?
Or at least did you want what you got?

Don't tell me you did not
Don't tell me you did not like you never had a choice

And there's a lot of pain
But nothing like you could imagine today
Still you feel it in your veins
And with every breath you take
And with every move you make
That the city's gonna break
But maybe only take what you will it to away
And I've been playin' games
I've been fakin' praise just like any other saint

That ever asked you
Did you get what you wanted?
Or at least did you want what you got?
Did you get what you wanted?
Or at least did you want what you got?

Don't tell me you did not
Don't tell me you did not like you never had a choice

How I could just be gone
How I could move along and
No one would wonder why
No one would wonder

Did you get what you wanted?
Or at least did you want what you got?
Did you get what you wanted?
Or at least did you want what you got?
