

# Comfort Me

Malcolm Todd

Take my electric feel  
We don't got to tell them all, baby, ohh ohh  
Take my electric feel  
We don't got to tell them all, baby, ohh ohh

Don't get too mad, but I don't care  
Who has made their plans to go be around you  
I need you bad, I need you, baby  
Don't get too mad, but I don't care  
Who has made their plans to go be around you  
I need you bad, I need you, baby

Take me on slowly  
What haven't you shown me?  
I like your nails, are they new?  
Oh my gosh, you like them as well  
I mean we're just so in tune

Ok, you love me, I know now, please come fuck me  
I've been here alone, come comfort me, come on, come on  
Ok, you love me, I know now, please come fuck me  
I've been here alone, come comfort me, come on, come on

Take my electric feel  
We don't got to tell them all, baby, ohh ohh  
Take my electric feel  
We don't got to tell them all, baby, ohh ohh

Don't get too mad, but I don't care  
Who has made their plans to go be around you  
I need you bad, I need you, baby  
Don't get too mad, but I don't care  
Who has made their plans to go be around you  
I need you bad, I need you, baby

I don't wanna be holding your hand-(okay)  
I don't wanna be hearing your plans (you love me)  
I don't wanna be taking it slow-(okay)  
I don't wanna be faking what's known (you love me)

I don't wanna be holding your hand-(okay)  
I don't wanna be hearing your plans (you love me)  
I don't wanna be taking it slow-(okay)  
I don't wanna be faking what's known

Ok, you love me, I know now, please come fuck me  
I've been here alone, come comfort me, come on, come on  
Ok, you love [\*bleep\*] me, I know now, please come fuck me  
I've been here alone, come comfort me, come on, come on
