

## Earrings

Malcolm Todd

Her love is in your head  
You lost your earrings in her bed  
You couldn't tell her that you lost them  
'Cause you're scared and you're not talking

So you think of what to say  
Then save it for another day  
'Cause you just never had the heart  
Now they just drift further apart

From you from you from you from you

Her love is in your head  
You lost your earrings in her bed  
You couldn't tell her that you lost them  
'Cause you're scared and you're not talking

So you think of what to say  
Then save it for another day  
'Cause you just never had the heart  
Now they just drift further apart  
From you
