

Lovebird

Malcolm Todd

Baby
You know it's bad
You can leave but I won't go
I'll just talk to you
I'll talk to you

Baby
You know it's Mac
Greenish eyes and six foot four
Someone that you knew
That you know

I wanna see you [?]
Do you recognize my face?
Cause I'm just seeing blue

Baby, I'm on a roll
Moping is getting kind of old
So I'll take you one day

While I've been away for awhile now (try now)

No taking
And no breaking (cause I'm just weird)
I keep egging
Without break
No mistakes

Why I never tell
Shit don't seem so well

But I want you
And you want me
And I can see that clearly

No checking
And no breaking (no sweat)
I keep thinking about runnin' (no stay)

Why I never touch
Shit don't seem so well

Lovebird
Feeling on my body
Feel me til you're sorry
That you can't feel lonely anymore

Soon though
You'll be wearing new clothes
Waking up at noon
Way ahead of me
Forgetting what you said to me

Lovebird
Feeling on my body
Feel me til you're sorry
But you can't feel sorry anyways

Soon though
You'll be wearing new clothes
Sittin' wondering why
Why we kissed goodbye
