

What's Up

Malcolm Todd

Girl I wanna play the game
Baby you know what's up
It's always been the same
Cause you just need my love
And I need you to stay
Baby you know it's hard
I'll make it go away

I call and you always reply
I'll be alone because I'll never get it right
I always see it on your face when you get down
You make me still believe that I could get it now that you have
come around

Girl I wanna play the game
Baby you know what's up
It's always been the same
Cause you just need my love
And I need you to stay
Baby you know it's hard
I'll make it go away

I thought that you would want my hand but now I love you can't
be sad
Go be free I'll get on with no dread I'll find a new focus to f
ree me
I thought that you would go away but we would always feel the s
ame
More dummy more money you think the things you show me are so f
unny it's not funny

I thought that you would want my hand but now I love you can't
be sad
Go be free I'll get on with no dread I'll find a new focus to f
ree me
I thought that you would go away but we would always feel the s
ame
More dummy more money you think the things you show me are so f
unny it's not funny
