

Low Life

Malevolence

I hope this is fucking lesson learned
Now you're on your back and all your bridges are burnt
Now the tables have turned
Let justice be served

You fucking parasite
Won't even stand and fight
Sucking out the soul from another's life
You worthless parasite
No fucking pride in sight
I was force to push you aside

Left to rot, left to rot
And we don't give a fuck if you like it or not
Left to rot, left to rot
When you turn your back on all that you've got

Anger turning to rage
All positive memories fade
Now I'm counting down the days
Till I wipe that fucking smile from across your face

Still here, still strong
Never forget where I came from
Another strength that sets us apart
Still rising up to the top
Still here, still strong
Never forget where I came from
You never gave it your best, you never had it at all
Watch me rise up whilst you fall

I've got nothing to prove
I've got nothing to lose
So keep your mouth shut
Until you've walked a day in my shoes

Low life, low life
You will never see the world through my eyes
Low life, low life
You will never stop me speak my mind
