

## Face Your Fear

Malevolent Creation

I come for you  
Hands upon your skin  
Chilling your bones  
Gripping your soul

Face your fear, face your fear  
Face your fear, face your fear

Feel death come for you  
Nocturnal silence  
Adrenaline wracked in no way  
Limbs locked in pain  
Future annihilated  
Target for you  
Stripped flesh from your face  
My own expression craze

Fingers clenched in rigored grip  
Will to live it quickly fades  
Broken body, soul now slips  
Consciousness falls away

Feel death come for you  
Nocturnal silence  
Adrenaline wracked in no way  
Limbs locked in pain  
Triumph of pain  
Feat on your inner shame  
Jaw clench, locked down tight  
How the soul strains  
Scent of your fear  
Filling my nose  
Look in your widened eyes  
Sheer panicked terror flows

Fingers clenched in rigored grip  
Will to live it quickly fades  
Broken body soul now slips  
Consciousness falls away

Face your fear
