

Cloud

Mali Music

I don't ask, I just read the bible
I don't know what your pastor spoke
It's a blessing and a whole revival
A simple message with the Holy Ghost

People messing with the soul inside You
People questioning the words You spoke
Came down, set the world afire
And went away on a cloud of glory

And went away on a cloud of glory
And went away on a cloud of smoke
Came down, set the world afire
And went away on a cloud of glory

Yeah
It's a matter of Your souls survival
Try to keep You in the valley low
If I come to be the soul survivor
Try to sneak up in the alley slow
People messing with the soul inside You
People questioning the words You spoke
You came down, set the world afire
And went away on a cloud of glory

And went away on a cloud of glory
And went away on a cloud of smoke
You came down, set the world afire
And went away on a cloud of glory

Yeah
He said keep these commandments
He said keep these
Translated the English and in Spanish
Let them repeat these
I give them strength so they could manage
I'll equip these
Praying that You keep me from the damage
Less I repeat these

People messing with the soul inside You
People questioning the words You spoke
Came down, set the world afire
And went away on a cloud of glory

And went away on a cloud of glory
And went away on a cloud of smoke
Came down, set the world afire
And went away on a cloud of glory
