

# Contradiction

Mali Music

What's good, boy  
(Contradiction)

We meet again good friend  
You see the stars come down to meet you  
You look like the last time  
Let a new day come and greet you  
Stuck in your ways, stuck in your mind, stuck all the time  
When their out of the room, especially mine, used to be fine  
I swear I was confused, used to be blind  
That was a moment in time when I thought of you  
Now I'm on mine  
Some say hey to everybody  
Yo, tell 'em I love 'em, it's good this side of the globe  
Is everything like it should? Man I don't know  
But for everyone that think they should go  
If you say that it's over  
(Oh Lord, oh Lord)

If you say that it's over, I won't die  
If you say that it's over, I won't die  
I'll just come back for more  
We'll meet again for sure  
If you say that it's over, I won't die

We meet again, old friend  
Look how they got you where they want you  
No need to play pretend  
You try so hard but it still haunts you  
All in your face, all of the time  
Running from everything  
Run out of faith, now you are blind  
It's such a shame it's a  
Terrible waste, beautiful mind  
That was a moment in time when I thought of you, now I am fine  
No matter what you say

If you say that it's over, I won't die  
(I won't die, I won't die, no, no)  
If you say that it's over, I won't die  
(I won't die, I won't die)  
I'll just come back for more (Aw yeah)  
We'll meet again for sure  
If you say that it's over, I won't die  
(I won't die)

You don't have to say it's over  
You don't have to say it's through  
You don't have to say it's time  
Just goes back to you, yeah, just goes back to you, yeah  
You don't have to say you lost  
You should tell the truth  
Everything you do in time  
Just goes back to you, yeah, just goes back to you  
Yeah

If you say that it's over, I won't die

If you say that it's over, I won't die  
I'll just come back for more  
We'll meet again for sure
