

## Sit Down for This

Mali Music

Father I see the light is on  
The grim reaper is asleep  
Got his hands on all your people  
It don't feel right, know I know something's wrong  
We chased a lot, we're holding on  
Father someone's on the phone  
And this doctor's in my ear sounding scared  
And now my mind is going crazy, yo what's going on?  
What's going on?

And he says, "Maybe you should sit down for this  
You should sit down for this, we have your family here  
Maybe you should sit down"  
But I don't wanna sit down for this  
I'm not prepared, what's going on?  
What's going on?

Father I can't take it, heart is palpitating  
Tryna tell myself I know you're in control  
Tryna tell myself I know you got me Lord  
And my family in your hands  
But I'm only just a man and I break down  
Father can you save 'em  
Father can you take my broken pieces, make a way  
Oh God, can you make a way, but it's your will  
And I'm out to take this 9 to 5 and make it real  
So real, so real  
Father can you save 'em?  
Can you change the way this happened?  
Can you work a miracle?  
Yeah I know you can but will you turn it around?  
I'm on my cellphone now

Doctor's saying "Maybe you should sit down for this  
You should sit down for this, we have your family here  
Maybe you should sit down"  
I don't wanna sit down for this  
I don't wanna, I don't wanna, I don't wanna sit down

This is an emergency
