

Antiquated Vernacular

Malignancy

Mindless disciples
Egregious, mechanical, automatic, uncultivated
Unrefined depression bred replicant
Defies logic, replacing the upper eschelon
Obstruction of cortex, hazing, warping, modification
Extortion of essence, substance distorted

Illicit a response that never comes
Impotent social intercourse
Programmed drones - execute repetition

Implicit mediocrity, cauterized obsolescence
Social collapse, acquiesce, admonish so called progress

Inoculated from articulation
Unusual dialects, fornication of language
Loss of rhetoric, impressionable fools
Underwhelmed by simpleton diction

Way of life forever altered, regression, annihilation,
Intricate devices used by cretins, soulless, reclusive,
Introverted, awkward, our future is at hand
Procreate, insolence, bare witness, behold imbeciles!
