

# Intestinal Sodomy

## Malignancy

Ancient organisms lying dormant in nature  
Undisturbed, awaiting release  
Destruction of tropical forests awaken the virus  
Primitive life seeks out a host

Defies the air as it travels  
Pollutant is breathed through unclean oxygen  
Viral strain begins it's decadence  
Unwilling victim harbors this lethal agent

It cripples you, frozen in a state of shock  
Hunched over, the pain it stains your face  
Your cellular structure is being liquefied  
Digestive track spills from the rectum

Come to grips with reality Intestinal sodomy, f\*\*ked from  
the inside out  
Your ass is torn, black anal sludge flows from the spent  
orifice  
Disembodied, all your stomach contents are emptied
