

Love More

Mallary Hope

When your hearts overwhelmed with anger
And a friend feels like a stranger
Don't let hate turn it in to war
Love more

When the kids in the backseat screaming
And your patience is wearing so thin
Show 'em grace that they can't afford
Love more

Cause you can't go wrong with a little light
Lay down your pride instead of fighting
Even when you don't want to
Even when no one else will
Maybe you could be the one to dig deep enough and just
Love more
Love more

If your marriage is hanging by a thread
It feels like the flame is dead
And your thinking bout walking out the door
Love more

To the girl at the counter bagging groceries
To the homeless man begging on the road
Go on put a little light in their world
Love more

Cause you can't go wrong with a little light
Lay down your pride instead of fighting
Even when you don't want to
Even when no one else will
Maybe you could be the one to dig deep enough and just
Love more

I've never heard of anyone putting out a fire with fire
But I've seen grace change the ways of a hurting heart

When the people he came to redeem
Turned their backs on him
With a cross and a crown of thorns
He still loved more

Cause you can't go wrong with a little light
Lay down your pride instead of fighting
Even when you don't want to
Even when no one else will
Maybe you could be the one to dig deep enough and just
Love more
