

# Walking With The Light

Mallary Hope

Bring it on bring it on even if it all goes wrong  
Let it rain let it pour I was born to brave the storm  
It won't bring me down, bring me down  
I am David with a stone by myself but not alone  
Not a giant I can't face with the One who gives me strength  
I am ready now, ready now

So I will walk with the Light, heart wide open  
Be still and trust, never knowing  
Whatever may come, whatever may fall  
I know I'm gonna be alright  
Cause I'll be walking with the Light  
Walking with the Light

Turn it off, turn it off, flip the switch let it go dark  
I'm not scared, not afraid even on my darkest days  
I know You were there, You were always there

So I will walk with the Light, heart wide open  
Be still and trust, never knowing  
Whatever may come, whatever may fall  
I know I'm gonna be alright  
Cause I'll be walking with the Light  
Walking with the Light

I won't fear tomorrow  
I will dance in the sorrow  
I will walk with the Light  
Walk with the Light

So I will walk with the Light, heart wide open  
Be still and trust, never knowing  
Whatever may come, whatever may fall  
I know I'm gonna be alright

So I will walk with the Light, heart wide open  
Be still and trust, never knowing  
Whatever may come, whatever may fall  
I know I'm gonna be alright  
Be alright  
Be alright  
Cause I'll be walking with the Light  
Walking with the Light  
I'll be walking with the Light  
Yeah, I'll be walking with the Light
