

# Freaks

Mallory Knox

You're about to give up on me  
Even I don't believe a word I say  
'Cause I'm down in the dirt, you see  
I'm knocked down by my selfish ways

And ooh, I fell into you (yeah)  
A look did all the damage too (yeah)  
You burn just like a fever  
But I just make you sicker  
I couldn't hide a thing from you

Well maybe I wanted sympathy  
Maybe I wanted you to act that way  
'Cause tough love is a bitch to me  
I can't deal with the things you say

But it's true, the things that I do (ooh)  
They do all the damage too (ooh)  
I always get a shiver  
When I look in the mirror  
How can I mean a lot to you?

I can hear you run  
From a mile away  
With your loaded gun  
As you aim away from the truth  
I don't want that freak to get you  
Girl, I know you love when you know that I've tried  
I don't want that freak to get you, when I  
Would stay up all night

My fragile mind is a friend to me  
Need an excuse to drink more and more most days  
But deep down it's an enemy  
What's my excuse when ya walk away?

And ooh, I fell for you (ooh)  
You're smiling 'cause you know it's true (ooh)  
Yeah baby we're all sinners  
We all have misdemeanours  
I'd do it all again for you

I can hear you run  
From a mile away  
With your loaded gun  
As you aim away from the truth  
'Cause I don't want that freak to get you  
And girl, I know you love when you know that I've tried  
I don't want that freak to get you, when I  
Would stay up all night

You can dance with me for one last song  
Lights go out, I'll be what you want  
Long road home it might take all night  
One last rush, baby one last time  
So come on

I can hear you run  
From a mile away  
With your loaded gun  
As you aim away from the truth  
'Cause I don't want that freak to get you  
Girl, I know you love when you know that I've tried  
I don't want that freak to get you, when I  
Would stay up all night  
Would stay up all night  
Would stay up all night
