

# Midnight

Mallory Knox

It was a long drive home  
We'd talk away the miles and watch the world as we go  
And through the front window  
The sun was setting and we'd smile inside of it's glow

The radio low, we like to let go  
Shut down, turn off the world as we know  
Sit back and drive slow, don't care we go  
Tonight, tonight, tonight

You know we're out until midnight  
(watch all the stars burn)  
Outside  
(green light was go again)  
And these headlights  
(cut through the dark)  
Well it's our time to reach past and drive 'til  
Midnight  
(watch all the stars burn)  
Outside  
(green light was go again)  
For these midnight blues

And we breathe the cold night air  
A sweet silhouette in the streetlight  
Oh with the wind rushing through her hair

The radio low, we like to let go  
Shut down, turn off the world as we know  
Sit back and drive slow, don't care we go  
Tonight, tonight, tonight

You know we're out until midnight  
(watch all the stars burn)  
Outside  
(green light was go again)  
And these headlights  
(cut through the dark)  
Well it's our time to reach past and drive 'til  
Midnight  
(watch all the stars burn)  
Outside  
(green light was go again)  
For these midnight blues

We breathe the cold night air

The radio low, we like to let go  
Sit back and drive slow  
Tonight, tonight, tonight

You know we're out until midnight  
(watch all the stars burn)  
Outside  
(green light was go again)  
And these headlights  
(cut through the dark)

Well it's our time to reach past and drive 'til  
Midnight  
(watch all the stars burn)  
Outside  
(green light was go again)  
For these midnight blues

Oh we breathe the cold night air
