

# Better

Mallrat

At the time it was alright, but  
Looking back I hurt my eyes  
Maybe all the angels had to fly

You get a little bit high  
You're looking better than I  
Better, better  
I hope you're feeling better  
You get a little bit high  
You're looking better than I  
Better, better  
I need you feeling better

And the sun was in my eyes  
But its home is in the sky  
And I couldn't ask for anything  
You're always on my side and  
Everyone's alive so everything's alright  
But maybe when the summer ends I'll drift away from all my friends  
And the sun was in my eyes  
But its home is in the sky  
And I couldn't ask for anything  
You're always on my side and  
Everyone's alive so everything's alright  
But maybe when the summer ends I'll drift away from all my friends

Everyone is really nice  
Sugar sweet and sugar high  
Wait and see if this will last the night  
So I'm slashing all my tyres and I'm cutting all my ties  
And I'm sorry that I even let you promise that you'd try  
And all your friends are nice but you like throwing dice so  
Maybe that's the reason all the angels had to hide

You got a little bit high  
You're looking better than I  
Better, better  
I hope you're feeling better  
You got a little bit high  
You're looking better than I  
Better, better  
I need you feeling better

And the sun was in my eyes  
But its home is in the sky  
And I couldn't ask for anything  
You're always on my side and  
Everyone's alive so everything's alright  
But maybe when the summer ends I'll drift away from all my friends  
And the sun was in my eyes  
But its home is in the sky  
And I couldn't ask for anything  
You're always on my side and  
Everyone's alive so everything's alright  
But maybe when the summer ends I'll drift away from all my friends

At the end you just got high

Now I've got an angel in the sky  
Now I've got an angel in the sky
