Circles

Mallrat

When you get your day off
You know I keep my day free (Just in case ya)
If they ask ya who you like
I really hope you say me (Just in case ya)
Just in case you wonder why
I'm always where you wandered by
Know everything about your life
And all the drugs you wanna try
Only 'cause I listen when you speak
You tell me everything
I notice something missing when you leave
Why don't you stay with me?

Keep me safe, guide my faith
Dress in white, stay up late
I'm not tired, it's just dark
I can't find where ya are
Keep me safe, guide my faith
Dress in white, stay up late
I'm not tired, it's just dark
I can't find where ya are

Seem fine, but I'm upset
'Cause I remember, I remember when
Never mind, I forget
Nothing really bad has happened yet
Way up in the clouds
You and I are hiding from the crowds
They don't understand
Think I'm clever and will never learn

Keep me safe, guide my faith
Dress in white, stay up late
I'm not tired, it's just dark
I can't find where ya are
Keep me safe, guide my faith
Dress in white, stay up late
I'm not tired, it's just dark
I can't find where ya are

I'm in your circus, 'running 'round in circles
Jumping through your circles, setting fire to circles
I'm in your circus, 'running 'round in circles
Jumping through your circles, setting fire to circles
I'm in your circus, 'running 'round in circles
Jumping through your circles, setting fire to circles
I'm in your circus, 'running 'round in circles
Jumping through your circles, setting fire to circles

Keep me safe, guide my faith
Dress in white, stay up late
I'm not tired, it's just dark
I can't find where ya are
(I'm in your circus, running 'round in circles)
Keep me safe, guide my faith
(Jumping through your circles, setting fire to circles)
Dress in white, stay up late

(I'm in your circus, running 'round in circles)
I'm not tired, it's just dark
(Jumping through your circles, setting fire to circles)
I can't find where ya are
