

# Hocus Pocus

Mallrat

Not scared at all  
At the thought of crystal balls  
I watched it play out  
Long before you opened that door

Just like a rubber band  
I feel my heart expand  
How long till snap, yeah  
I know you like the back of my hand

When I'm in your atmosphere I fall under your spell  
When I'm in your orbit I absorb it can you tell?  
When I'm in your solar system I'm forgetting all my wisdom  
Floating, floating, floating, floating

Oh darling can't you see  
Something magic brought ya to me  
And I can't help but notice  
You've been falling for hocus pocus

Oh darling can't you see (ya see)  
Something magic brought ya to me  
And I can't help but notice  
You've been falling for hocus pocus

Can you hold me back? You can hold me back  
I can feel myself drifting off my track  
Wanna let ya go, not ready for the fall  
Suspended by your magic high above it all

Can you hold me down, I'm gonna float away  
I don't wanna leave ya, and I don't wanna stay  
Just want you to know that I can feel ya in my dreams  
I swear I heard an angel in a distant memory

When I'm in your atmosphere I fall under your spell  
When I'm in your orbit I absorb it can you tell?  
When I'm in your solar system I'm forgetting all my wisdom  
Floating, floating, floating, floating

Oh darling can't you see  
Something magic brought ya to me  
And I can't help but notice  
You've been falling for hocus pocus

Oh darling can't you see (ya see)  
Something magic brought ya to me  
And I can't help but notice  
You've been falling for hocus pocus

Born to lose, took it from the fool  
Then I, then I  
Ridin' steamer, took it from the fool, then I bailed

Born to lose, took it from the fool  
Then I, then I  
Ridin' steamer, took it from the fool, then I bailed

Born to lose, took it from the fool  
Then I, then I  
Ridin' steamer, took it from the fool, then I bailed

Born to lose, took it from the fool  
Then I, then I  
Ridin' steamer, took it from the fool, then I bailed
