

## Eye of Horus

Malrun

Two thrones  
One rule  
In your arms I feel alive  
Blood red  
Night skies  
Light our path below

Shiver  
From your touch  
When our lips and flesh unite  
Dark tongues  
Whisper in the night  
Of a grand demise

Cast off the Romans  
Bow to none  
Riding the sand dunes  
Godlike we've become  
Eye of Horus  
Is shining from afar  
Sign of a new sun  
Our coronation

Bearer of  
False news  
Made me fall onto the sword  
Distraught  
You kneel  
Kiss the asp goodbye

Cast off the Romans  
Bow to none  
Riding the sand dunes  
Godlike we're become  
Eye of Horus  
Is shining from afar  
Sign of a new sun  
To mark the time of...

Our rise  
And fall
