

Safe Asleep

Malukah

Safe asleep
I cannot wait to know all your dreams
Night or day
I will be here whenever you wake

Hope shines bright
It's easy to love a heart made of light
I'll give my life
To carry your world while you learn to fly

I'll hold you in my arms
Until you're brave enough to let me go
You'll never be alone
'Cause true love was promised
The day you were born

Take your time
Be patient my love
Don't fly off too fast
I'll give you space
To strengthen your wings
And find your own way

When you build a life of your own
You'll have to teach me how to let you go
And if you ever feel alone
Remember true love was promised
The day you were born

Safe asleep
I cannot wait to know all your dreams
