Without you I miss you  
I miss you I miss you  
Only you

I think of it like it's really nothing

Just like you  
Hey Hey I'm not missing you  
Don't have any anxious thoughts  
It's like sometimes wanting to wear clothes you used to wear a long time ago  
No let's be lighter Baby I'm curious about you  
Each of our lives have been lived for a while

How are you when you asked me how I was doing  
I froze, full of all the things I was about to say  
Without you my calm heart  
Falters as I see you, you're bad  
I hate you

What do you mean it's been hard, no It's not true  
Every every day I live a busy life  
Don't get worried over nothing  
Sometimes I get lonely and like others  
You think of the past I'm curious about you  
Each of our lives have been lived for a while

How are you when you asked me how I was doing  
I froze, full of all the things I was about to say  
Without you my calm heart  
Falters as I see you, you're bad  
I hate you

Stop, how much longer do you have to make fun of me  
I ignore and keep walking, I leave for the place where you used to be

How are you I've been unwell  
I miss you and I can't go to sleep  
Without you I am nothing  
In my heart, where I can only tear up, is  
Only you
