I'll be thinking of you

Every day & night
I wanna get you one more time and this love

I get a glimpse of you, turn on green light
I don't want to leave here now
Your reflection through the lens, lock on babe
I wanna get you babe.
I want to capture it, smile once more please
A moment to capture you in my hands, good chance
Without anyone noticing, ring my heart

I want to only gaze at you, secret time (hello)
If our eyes meet, I'll pretend like nothing happened
Look busy then casually once more
I'll capture you

I fall in love. Will you notice
My shaking expression?
I can't touch. What if you catch my feelings for you?
What's happening to me, my heart is fluttering again
Endless time

I'm a real flirt but in front of you
I can't even budge - I'm like a little child
Why are you covering your beautiful face
Get out of the view, unnie, quickly
My shyness becomes more apparent
We make eye contact again - I dodge my eyes
And look away quickly - Endlessly, I create fantasies about you
Other things can wait. I'm not ready yet

Should I get closer, secret move (hello)
Now only you and I will be in the image
Look over at me just once
I'll capture an image of you in my heart

I fall in love. Will you notice
My shaking expression?
I can't touch. What if you catch my feelings for you?
What's happening to me, my heart is fluttering

Fall in you, focusing you
Where can you be
Directed towards you - spotlight
You are all I see

Dizzily, towards me, zoom
I want to get to know another side of you
Touch. This is a new side of me
I'll be thinking of you

Every day and night
I wanna get you one more time and this love
