

Miles Above Me

Mammoth WVH

Wait for me
I'll wait for you
Tell me to
And I'll beg for you

Take control, call it out
(It's all I ever do, it's all I ever do)
Am I good for you now?
(It's all I ever do, it's all I ever do now)

Whatever you are you're miles above me
Whatever you are I'm not enough

Don't wait for me
I don't want to wait for you
Even if you tell me to
I won't ever beg for you

Crawl right back, end it now
(It's all I want to do, it's all I want to do)
Am I done, let me out
(It's all I want to do, it's all I want to do now)

Whatever you are you're miles above me
Whatever you are I'm not enough

Take it all away from me
Leave me with my tragedy
I know you're not sorry

Whatever you are you're miles above me
Whatever you are I'm not enough

Whatever you are you're miles above me
Whatever you are I'm not enough
Waiting for a chance to fall in love, you're miles above me
Will I ever be enough?
I'm enough
