

# Optimist

**Mammoth WVH**

Life has shaped you without your consent  
I'm shouldering all of your entitlement  
It's beautifully void of your enlightenment

Thinking I should've known better  
Taking the blade out of my back  
Don't be mistaken, ever  
Wishing you nothing but the best  
But the best

You  
Ever the fucking optimist  
Optimist  
Please  
Just kill me quick, and bury this  
You can't resist

Thinking I should've known better  
Taking the blade out of my back  
Don't be mistaken, ever  
Wishing you nothing but the best

Thinking I should've known better  
Now I'm awake

Thinking I should've known better  
Taking the blade out of my back  
Don't be mistaken, ever  
Wishing you nothing but the best
