

No more flowers  
What we know is not the same  
Drunk with power  
Only you control this game

Take anything  
Break everything  
You know you're wrong  
It won't be long

Take anything  
Break everything  
You know you're wrong  
It won't be long

Well, what now?  
There's something in the way you found me  
You don't even know how it goes  
Broken down  
There's something in the way you lost me  
You won't ever know the resolve

Countless hours  
Only you can cure this pain  
You fucking coward  
Brought on more unwanted change

Take anything  
Break everything  
You know you're wrong  
It won't be long

Take anything  
Break everything  
You know you're wrong  
It won't be long

Well, what now?  
There's something in the way you found me  
You don't even know how it goes  
Broken down  
There's something in the way you lost me  
You won't ever know the resolve

Well, what now?  
There's something in the way you found me  
You don't even know how it goes  
Broken down  
There's something in the way you lost me  
You won't ever know the resolve

You're what's wrong  
There's something in the way you loved me  
And I don't even know anymore  
All along  
There's something in the way you broke me  
You won't ever know the resolve

You won't ever know the resolve

No

You won't ever know the resolve

You won't ever know the resolve
