

# Stone

**Mammoth WVH**

You came to be  
All from everything I lacked in honesty  
Not what you need  
Everyone's alive while you're asleep

It's all been turned to stone  
You say it's all your own  
You pretend  
You pretend  
It's all been turned to stone  
You'll end up here alone  
In the end

Truth  
Make Believe  
Everything was yours  
Hypocrisy  
True disbelief  
One more fucking thing you couldn't keep

It's all been turned to stone  
You say it's all your own  
You pretend  
You pretend  
It's all been turned to stone  
You'll end up here alone  
In the end

How are you feeling?  
You don't believe it  
Because you thought that I would stay  
You've lost your meaning  
You'll never see it  
And fail to wash it all away

Away

Away

All the way  
All the way down

How are you feeling?  
You don't believe it  
Because you thought that I would stay  
You've lost your meaning  
You'll never see it  
And fail to wash it all away

All the way  
All the way down  
All the way  
All the way down
