

If Only

Man Man

If only I gave a little more of myself
Maybe you'd still be here with me
If only I hid my thoughts in a well
Maybe I'd sleep like a baby

We could walk it back
Find how it cracked
What's the point of that
What's the point of that
If it's broken

We could talk it back
Try and fix the cracks
What's the point of that
What's the point of that
If it's hoping

If only I gave a little more of myself
Maybe you'd still be here with me
If only I hid my fears in a well
Maybe you'd sleep like a baby

We could walk it back
Find out how it cracked
What's the point of that
What's the point of that
If it's broken

We could talk it back
Try and fix the cracks
What's the point of that
What's the point of that
If it's coping

If only I gave a little more of myself
If only you knew I gave it all that I had
