

## Hiding in Plain Sight

Man Must Die

In our face they spit  
The working man is an invalid  
Society nurtures the leech  
No need to try for a better life  
When you can sit on your ass  
And just bleed your country dry  
I'm working seven days a week  
Breaking my back to make ends meet  
We watch while future generations  
Pave our way to extinction

Give them what they want  
It fuels their greed  
The parasite has a need to feed  
Off you and me  
So they can live for free  
A drain on society

Neck deep in shit  
It's our economy that takes the hit  
The damage irreversible  
A fuckin' free for all  
Lining their pockets with the cash we earn  
A parasitic nation let it burn  
You've got no fuckin' right  
You won't take what's mine  
Without a fight  
Stand up and be counted  
And do what's right

Do you see it?  
It's destroying our integrity  
Hiding in plain sight  
Ignorance is systematic  
Politicians self help tactics  
Serves no means

Pull out our tongues  
Remove our sight  
But we won't run  
This time we've come to  
Stand and fight
